3 people have recommended Martin

"Curious and open-minded facing different programming language and technology, Martin is a clever developer who is very adaptive and who keeps himself aware about all innovations in IT area. Once he is interested in a task or a project, he becomes very proactive and fully implicated. I recommend him to any company which searches for an autonomous and creative trainee."

— **David Dupont**, *.NET 3.5, MCMS 2.0 and Sharepoint/WSS3 Consultant, LABEL*, managed Martin at LABEL

"After having had the pleasure to work with Martin on more than one occasion, I can vouch for him to be a colleague you can completely rely on. Not only does he have an exceptionally sharp mind, but he is also always on top of current developments and capable of suggesting fresh ideas. Add to that his great sense of humor, and there is someone I definitely recommend to hire - catch him as long as he's available!"

— **Markus Peter**, *.Net Development Manager, LABEL*, managed Martin at LABEL

"When you work with Martin you realize immediately that he is already a professional developer. Always in touch with new technologies and new programming techniques, Martin is a person motivated by the pursuit of excellence."

— **Jérôme HUGON**, *.NET developer, LABEL*, worked directly with Martin at LABEL
